Framing Our Work in 2019
Social Determinants of Health
INTRODUCTIONS
30 SECOND EACH ICEBREAKER
Our Work

- Expert Roundtables
- Capitol Hill Briefings
- Webinars
- Workshops
- Linked In Forums, Townhalls, Twitter
- Guidelines, Roadmaps
- Comment Letters
- Expert Roundtables
- Advisory Boards, Workgroups
- Policy Steering Committee (PSC)

PROMOTE
Best Practices & Solutions

ASSESS
Identify and Define Problems

INFLUENCE
Develop Recommendations
Guidelines

EDUCATE
Convene and Educate

• Surveys, Reports
• Member Feedback
• Expert Roundtables
• Policy Steering Committee

Current Areas of Focus

(Green Addressed at Roundtables Today)

Value Based Care
- Cost Transparency
- Prior Authorization

Interoperability
- Understanding FHIR/ APIs/DaVinci
- Policy Issues/Burden, Workflow, Info Blocking

Privacy/Security
- Protection Vs Access
- HIPAA Part 2
- Cybersecurity Med Devices

Analytics/SDOH
- Non-Traditional Sources of Data for Health (SDOH, PGHD)
- EHR data for clinical trials (Doublejump)
Analytics and Social Determinants of Health

• This initiative will provide guidelines for healthcare stakeholders on the use of social determinants of health (SDOH) data to improve patient and population outcomes.

• **Problem:** Because SDOH data relates to more personal aspects of a patient’s life, and has a less traditional role than other types of medical data, there exists a misunderstanding of its potential use and value by consumers and policy makers, as well as concerns that it will be misused. While the healthcare industry has the potential of using SDOH in impacting health outcomes and costs, it is less clear how to define, measure, collect, and share this data.

• **Solution:** eHI will identify how SDOH will be used with the goal of developing industry guidelines. Stakeholders will identify innovative policy and process approaches that will help policy makers understand the value of SDOH.
Discussion

• Why is addressing the role of SDOH important?

• How are providers and other stakeholders using SDOH?

• What is the theory of using SDOH for the purpose of impacting health outcomes?

• What are the myths around SDOH/What is the hype?

• What are the concerns of using SDOH?
• Why is addressing the role of SDOH important?
• How are providers and other stakeholders using SDOH?
• What is the theory of using SDOH for the purpose of impacting health outcomes?
• What are the myths around SDOH/What is the hype?
