White Paper: Patient Registration Demographic Data Capture and Exchange

Public Comments Due July 24, 2017

Distributed via e-mail to the selected listserv(s)

Date: June 20, 2017

Subject: AHIMA-IHE White Paper on Patient Demographics–Please comment by **July 24**.

Dear Colleagues:

Integrating the Healthcare Enterprise (IHE) and American Health Information Management Association (AHIMA) invite you to submit comments on the White Paper entitled ***Patient Registration Demographic Data Capture and Exchange***.

The White Paper was developed by the IHE Patient Care Coordination (PCC) Committee with participation of the AHIMA Standards Task Force. It is based on the AHIMA Patient Registration Use Case and specifies the requirements and constraints for patient demographic data that should be collected and exchanged for patient registration during an emergency department visit at a healthcare organization.

These data requirements may be proposed to be published as future IHE Technical Framework Volume 4: United States National Extension to the IHE ITI Patient Administration Management (PAM) Profile for the message-based data exchange.

Please download the **White Paper** [here](#). URL:

http://ihe.net/uploadedFiles/Documents/PCC/IHE_PCC_WP_PR_Rev1.0_2017-06-16.pdf

Please download the **Public Comment Form** [here](#) or see form attached.

The form contains instructions for recording and submitting your comments.

Thank you for your contribution in developing standards for HIM practices.

Sincerely,

Diana Warner
