Wellport HIE Examples of Successful Interoperability
Description Template

Profile Element	Description	
Responsible Entity	The owner of the project	Wellport HIE
Participating Entities	Types of organizations participating, e.g., hospital, provider	Hospitals Community MDs Surescripts Home Health Anticipate a grant to add nursing homes LabCorp Quest
Description	Short description of the project	Capabilities • Connected to MASS highway • Connected to VA system • Can send via Direct • Have 2 million notes – progress notes, discharge summaries • Anyone looking at a patient can see a timeline of past and future appointments. Can click on an appointment and open a progress note for the appointment. • Can double click on the content and attach to a Direct message. Can attach multiple notes within one message. Attachment is in a text format. • Receiver can print and scan, cut and paste into EMR • Home health participating • Requested a grant from MEHI to add 2 nursing homes, a home health, and

		behavioral health
		• Data access is through the portal
		• Get C-CDA s from some vendors
		• Have HL7 feeds
		• ADT feeds
		• Some C-CDAs
		• Lab feeds from Quest, LabCorp, hospitals, and large practices. Come as HL7 lab messages.
		• For eClincal Works they have access to database in MDs offices that can be format as a progress note
		• Athena sends a full C-CDA
		• Varies by vendor
		• GE send a feed of note in different format. Get all of the clinical information.
		Have a patient portal where the patient can view their data, send their data, update their demographics, request and appointment, refill, or ask a question.
		Get data feeds from Sure Scripts for medications.

Standards Implemented	What standards were implemented in the project	Direct C-CDA HL7 ADT messages HL7 lab messages
Policies Adopted	What policies were implemented/adopted to support the implementation	
Timeframe	Start date, key milestones	Began live operations in August 2014
Volumes	Quantitative indicators, e.g., number of providers, number of records exchanged	357 contracted users, included hospital based and community MDs 14,301 log ons by MDs in June 1,623 log ons by patients in June 289,632 patient in the database as of 11/2015 10,567patient opted-in as of 11/2015 (required by state)
Impacts	Quantitative results, e.g., reduction in delays, cost savings	
	Qualitative results, e.g., provider satisfaction, perceptions, testimonies
